

Product description	M16 IP67 female cable connector, Contacts: 7, 4.0 - 8.0 mm, unshielded, crimp (Crimp contacts must be ordered separately), IP67, UL
Area	M16 IP67 series 423
Order number	99 5126 740 07

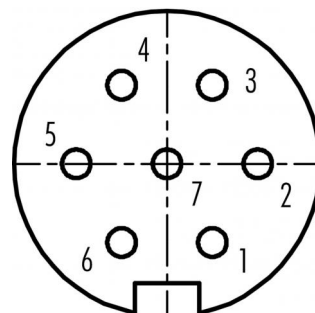

## Illustration

## Scale drawing

## Contact arrangement (Plug-in side)

You can find the component part drawing and assembly instructions on the next page.

## Technical data

## General values

Connector design	female cable connector
Connector locking system	screw
Termination	crimp (Crimp contacts must be ordered separately)
Wire gauge (mm)	see crimp contacts under accessories
Cable outlet	4.0 - 8.0 mm
Upper limit temperature	100 °C
Lower limit temperature	-40 °C
Customs tariff number	85369010

## Electrical values

Rated current (40 °C)	5 A
Rated voltage	125 V
Rated impulse voltage	800 V
Pollution degree	1
Overvoltage category	I
Insulating material group	III
Insulation resistance	$\geq 10^{10} \Omega$
EMC compliance	unshielded
Degree of protection	IP67
Mechanical operation	> 500 Mating cycles

## Material

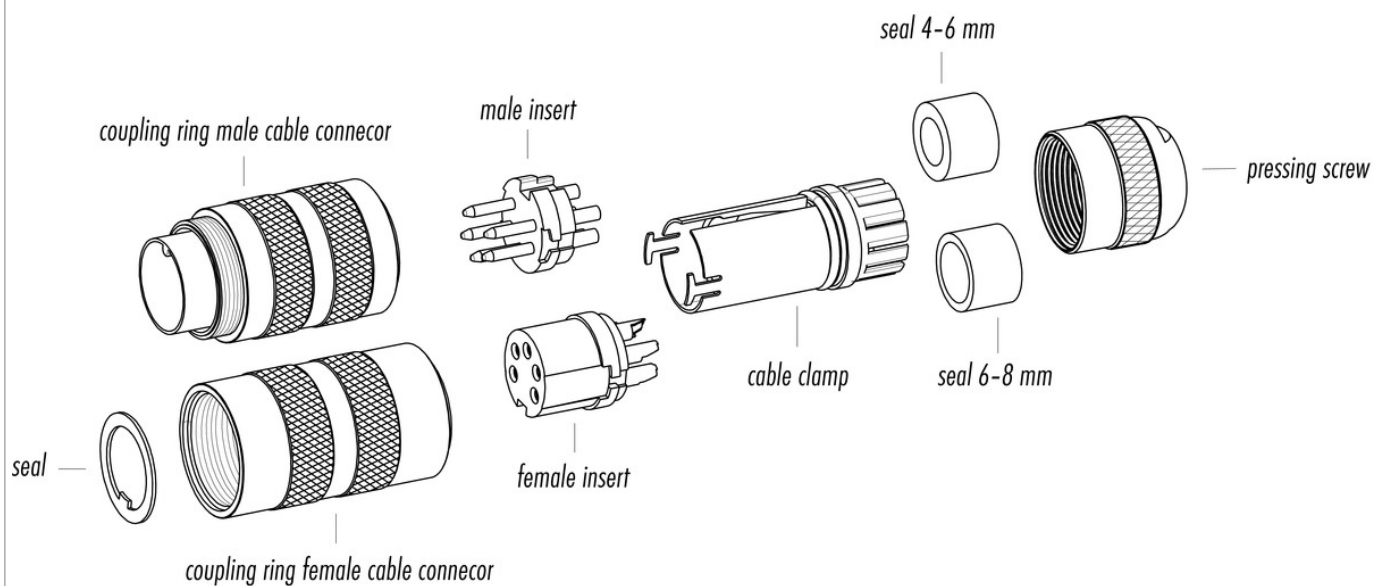

Contact material	depending on crimp contact (accessory)
Contact body material	PBT (UL94 V-0)
REACH SVHC	CAS 7439-92-1 (Lead)

## authorization/approvals

Approval 1	UL
------------	----

Product description	M16 IP67 female cable connector, Contacts: 7, 4.0 - 8.0 mm, unshielded, crimp (Crimp contacts must be ordered separately), IP67, UL
Area	M16 IP67 series 423
Order number	99 5126 740 07

Order number	99 5126 740 07

## Security notices

The connector must not be plugged or unplugged under load. Non-observance and improper use can result in personal injury.

The connectors have been developed for applications in plant engineering, control and electrical equipment construction. The user is responsible for checking whether the connectors can also be used in other areas of application.

Connectors which are used in circuits with voltages dangerous to the touch may only be installed and used by, or under the supervision of, persons with electrical engineering training, taking into account the applicable regulations and standards.

Plug connectors with enclosure protection IP 67 and IP 68 are not suitable for use under water. When used outdoors, the plug connectors must be protected separately against corrosion. For further information on the IP protection classes, please refer to the "Technical Information" download centre. To lock the cable connector with the device connector, the threaded ring is tightened "hand-tight" (approx. 50 cNm).
