

Product description	M16 IP67 female angled connector, Contacts: 7, 4.0 - 6.0 mm, unshielded, solder, IP67
Area	M16 IP67 series 723
Order number	99 0126 106 07

### Scale drawing

### Contact arrangement (Plug-in side)

You can find the component part drawing on the next page.

## Technical data

### General features

Order number	99 0126 106 07
Connector design	female angled connector
Version	connector female angled
Connector locking system	screw
Termination	solder
Degree of protection	IP67
Cross-sectional area	max. 0.75 mm <sup>2</sup> / max. AWG 18
Cable outlet	4.0 - 6.0 mm
Twistability	90° (4 coding options)
Temperature range from/to	-40 °C / 95 °C
Mechanical operation	> 500 Mating cycles
Weight (g)	40.866
Customs tariff number	85369010

### Electrical parameters

Rated voltage	125 V
Rated impulse voltage	800 V
Rated current (40 °C)	5 A
Insulation resistance	≥ 10 <sup>10</sup> Ω
Pollution degree	1
Overvoltage category	I
Insulating material group	III
EMC compliance	unshielded

### Material

Housing material	PA
Contact body material	PBT (UL94 V-0)
Contact material	CuSn (bronze)
Contact plating	Ag (silver)
REACH SVHC	CAS 96-45-7 (Imidazolidine-2-thione)
	CAS 7439-92-1 (Lead)

### Classifications

eCl@ss 11.1	27-44-01-02
ETIM 7.0	EC002635

### Declarations of conformity

Low Voltage Directive	2014/35/EU (EN 60204-1:2018;EN 60529:1991)

## Security notices

The connector must not be plugged or unplugged under load. Non-observance and improper use can result in personal injury.

The connectors have been developed for applications in plant engineering, control and electrical equipment construction. The user is responsible for checking whether the connectors can also be used in other areas of application.

Connectors which are used in circuits with voltages dangerous to the touch may only be installed and used by, or under the supervision of, persons with electrical engineering training, taking into account the applicable regulations and standards.

Plug connectors with enclosure protection IP 67 and IP 68 are not suitable for use under water. When used outdoors, the plug connectors must be protected separately against corrosion. For further information on the IP protection classes, please refer to the "Technical Information" download centre. To lock the cable connector with the device connector, the threaded ring is tightened "hand-tight" (approx. 50 cNm).
